***Allowable Subject Matter***

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the soldering gun fastened by the resilient force of a clip with latched pieces which engages the "spout" of the combustion chamber of the soldering gun. The closest prior art, US 4858593, teaches (figure 1) a clip mechanism (11, 21) for attaching one portion of a soldering gun to another but does not teach that the fastening means is a clip with latched pieces disposed in the cavity of a barrel which clings to a spout having a combustion chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Colleen P Cooke whose telephone number is 571-272-1170. She can normally be reached Mon.-Thurs. 7am-5:30pm.
